OTHERS

- Github
- Gitlab
- Figma
- Adobe

EXPERIENCE

Chanz I.T Business Solution Inc.

October 2024 - Present

Web Developer

- **TSTC**
 - Developed and implemented robust backend APIs to ensure seamless integration with the frontend, enhancing system functionality and user experience.
 - Spearheading the full-stack development of a new application, from initial design to deployment, utilizing modern frameworks and best practices.
- **Life of Poker**
 - Maintained and enhanced the application by adding new modules and features, directly contributing to increased user engagement.
 - Ensured the stability and performance of the existing system through diligent debugging and optimization.
- **Companypass**
 - Maintained and added new modules/features to the core web application as a Full Stack Developer.
 - Managed mobile application maintenance, addressing bugs and implementing minor enhancements to ensure a consistent cross-platform user experience.
- **Abraham art (KUBS)**
 - Maintained and added new modules/features to the application, focusing on improving the art management and display functionality.
 - Successfully delivered feature enhancements that improved data handling and retrieval efficiency.
- **Taladnudbaan**
 - Responsible for the maintenance and stability of the core backend services and database.
 - Implemented performance optimizations on server-side logic to handle increasing data traffic efficiently.
- **Elektroconsult**
 - Developed and implemented robust backend APIs to ensure seamless integration with the frontend, enhancing system functionality and user experience.
 - Optimized backend processes for improved performance and scalability, supporting the frontend team with efficient data delivery.

Chanz I.T Business Solution Inc.

March 2024 - June 2024

Web Developer (Intern)

- Created and executed a responsive website to deliver a uniform user experience on various devices and screen sizes.
- Implemented API endpoints to enhance communication between the backend and frontend of the web application, thereby improving its functionality.
- Secured the application by employing top-notch practices for data encryption, authentication, and authorization to safeguard user data from potential threats.
- Enhanced database performance by optimizing SQL queries, introducing indexing, and achieving faster data retrieval and improved application efficiency.
